

Brown Sugar

Brown Sugar- Bringing Beauty Back to Black.

Wouldn't you like to shop in a polite, friendly environment, served by people you can identify with, who are able to offer personal advice on what products to buy? That's my vision, and that's why Brown Sugar Group was formed.

For too long women have been held in the thrall of the beauty industry; forced to pay high prices for everyday essentials. Brown Sugar is working to redress the balance. A members-only online buying group with a focus on the hair and beauty needs of the black community, our mission is to put buying power back into the hands of the people.

A commercial operation with a strong social purpose, at Brown Sugar three key tenets underline all that we do: Providing excellent service at the lowest cost, passing savings back to our members, and investing our sales profits into beauty industry training and jobs of direct benefit to your businesses.

Change is never easy, but the community is the best place to start. By joining together we can not only help ourselves, but also our young people. With cooperation we can save time, money and effort. Together, we can achieve more.

Brown Sugar - brilliant beauty at affordable prices.
